Immediately following the 700 MHz Public Safety RPC meeting, the 800 MHz Public Safety RPC will convene at the same location.

- Adjourn

Both Region 33 700 MHz and 800 MHz Public Safety RPC meetings are open to the public. All eligible public safety providers in Region 33 may utilize these frequencies. It is essential that eligible public safety agencies in all areas of government, including state, municipality, county, and Native American Tribal, be represented in order to ensure that each agency's future spectrum needs are considered in the allocation process. Administrators who are not oriented in the communications field should delegate someone with this knowledge to attend, participate, and represent their agency's needs.

<sup>1</sup> The Holiday Inn is located south of I-270, on the west side of High Street.

All interested parties wishing to participate in planning for the use of public safety spectrum in the 700 and 800 MHz bands within Region 33 should plan to attend. For further information, please contact:
